A cost effective way of displaying your COVID-19 safety messages

free standing, lightweight and portable

We have came up with a really cost effective way of enforcing your COVID-19 safety messages throughout your shop or place of business, whether it be a larger sign at an entrance or smaller versions that can be easily placed around aisles and small throughfares.

These lightweight corex A-Signs are printed with a range of standard, double-sided messages (eg. 1 person at a time / social distancing / sterilising / one way systems) or for a small additional cost can be customised with your own personal message, branding or corporate colours.

A weight can be easily set inside the base for stability outdoors and the entire sign can be cleaned with a wide range of regular cleaners and sanitisers.

Large - 850 x 600 x 250mm
